
CERTIFICATE PROGRAMS

In one year of study at Kuyper College, students can add biblical and theological studies to their career preparation and also develop skills for specific ministries. These programs are designed for persons who already hold a bachelor's degree. Students use these programs of study to prepare for specific areas of Christian service. The one-year certificate programs include a Certificate of Biblical Studies, a Certificate of Christian Ministry with a concentration in cross-cultural studies or youth ministry, and a Certificate of Christian Foundations. The TESOL certificate program available through Kuyper College is described on pages 62-63. A minimum of 15 credits must be completed at Kuyper College.

Certificate of Biblical Studies

The Certificate of Biblical Studies is designed to provide one year of concentrated biblical study for college and university graduates who hold a bachelor's degree.

Certificate of Christian Foundations

Kuyper College offers a one-year certificate program that provides a Christian perspective in the liberal arts and biblical studies for high school graduates. For students who will be enrolling in another college or university for a degree program that Kuyper College does not offer, the one-year certificate provides a biblical foundation on which to continue their education. Because Kuyper College is accredited by the North Central Association of Colleges and Schools (NCA) and the Association for Biblical Higher Education (ABHE), students who complete courses at Kuyper College are able to transfer credits to many other colleges and universities. Students should select 30 credit hours from the following course listing:
