Come, explore and discover if God is calling you to cross-cultural ministry at Zuni Christian Mission School in Zuni, New Mexico. Zuni Christian Mission School and Zuni Christian Reformed Church have served this Native American Pueblo for over 100 years. We remain faithful to the call of giving witness to the Gospel to our community.

For the 26-27 school year, we are looking for a person to serve on our school's administrative team. We invite persons who have general and/or specific administrative skills to apply. Among these skills are: office management, facility management, organization, technology, marketing, book-keeping, writing and layout, and relational. We do not expect one person to have all these skills—a specific job description will grow out of the skills the person brings and the skills of the other three administrative persons.
